Lenstra Lecture - 2018

Prof. Gregory W. Albers, Stanford University, CA, USA

Monday 1st October 2018

from 17h30 to 18h50

Ospedale Regionale di Lugano, Civico, Aula Magna

(Prof. Gregory W. Albers)

Dear Madame, Dear Sirs,

On behalf of the team of the Stroke Center and the organizing committee, we would like to invite you to the Lenstra Lecture 2018 at our Neurocenter (NSI) in Lugano, Switzerland.

The Lecture has been originated in 2018 with the support of Reijer and Antonia Lenstra, to promote education in neurosciences. The Lecture offers a unique opportunity for our medical, academic and healthcare community to meet prominent scientists from all over the world, recognized for outstanding contributions in patient-oriented stroke research.

For the first edition of the Lenstra Lecture the Stroke Center and NSI are honored to invite Gregory W. Albers from Stanford (USA). Throughout his career, Professor Albers has been convinced that stroke is a treatable disease. With his pioneer and innovative approach to imaging and management of ischemic stroke, he contributed to the contemporary revolution of stroke treatment, changing the guidelines of acute stroke care and the outcome of innumerable patients worldwide.

Hoping to welcome you, we send you our best regards,

PD Carlo Cereda, MD
Co-Head of Stroke Center,
Neurology Clinic NSI

Prof. Alain Kaelin, MD Dr.Phil.
Medical and scientific
Director NSI

Claudio Städler, MD
Head of Stroke Center and
Chairman Neurology Clinic NSI
