Ticino

Dear Madame, Dear Sirs,

On behalf of the organizing committee, we would like to invite you to the "Lecture of the year 2019" at our Neurocenter in Lugano, Switzerland

The "Lecture of the Year" has been initiated in 2009 with the support of the Fondazione Sir John Eccles to demonstrate our commitment to excellence. We had the privilege to welcome researchers from all over the world, who gave significant contributions in the field of basic and clinical neurosciences.

The FNT (Fondazione Neuroscienze Ticino) was founded in 2012 in Lugano, with the goal to promote the excellence of neurosciences in Ticino and improve patient care in neurological disorders.

This year the NSI is pleased to honor Prof. Franz Fazekas, Head and Chair of Department Neurology, Director of Division General Neurology, Medical University of Graz in Austria, for his outstanding contributions and pioneer work in the area of "neurovascular diseases".

The NSI in Lugano is the only Neurocenter in the Southern Italian speaking part of Switzerland and regroups all public institutions dealing with Neurology, Neuroimaging, Neurosurgery and Pain center encompassing the whole spectrum of neurosciences disciplines, in close collaboration with other Swiss and international universities and research institutions

Hoping to welcome you, we send you our best regards,

Prof. Alain Kaelin, MD Dr. Phil.
Medical and Scientific Director NSI
