3RD SACTA SPRING SYMPOSIUM

For the third time in a row, again this year, the Swiss Association of Cardiovascular and Thoracic Anaesthesia (SACTA) is happy to propose you the SACTA Spring Symposium.

Our programme consists of two parts:

The “early afternoon session”, that will be focused on heparin induced thrombocytopenia (HIT), and

The “late afternoon session” with discussions regarding analgesia during cardio-thoracic surgery.

We look forward to seeing you during this continuing medical education moment.

The SACTA Board
